News and Gossip of To-Day's Market—Present and Future Prices.

There was no convincing evidence given by the action of the stock prices to-day that the bull movement which has been going on since early in February is in its culminating stage. On the contrary, bull cliques are as aggressive as at any previous time, and their efforts are meeting with a full measure of success.

When one group of speculative favorites show signs of lagging they are

allowed to rest while another is taken up. To-day the motor, shipping, tobacco and certain of the agricultural shares were paraded.

In the motors White Company was jacked up to a new high with a gain of 7 points. Maxwell common rose nearly 6 points, Chandler about 7 points and Studebaker 3 points. There are numerous stories of mergers, stock dividends and what not, but the real reason for the eager buying is that nearly all motor companies are working at full capacity to catch up with public demand and that prospective profits are comparatively enormous.

No new developments occurred in the shipping situation, but Atlantic oil rose 6 points, Marine common 4 points and Marine preferred more than 3 points.

Canadian Pacific furnished a sensational

report daily production:

4,625 barrels oil  
15,000,000 cubic feet gas  
800 gallons gasoline

Total Capitalization \$3,000,000. Outstanding \$2,221,940.
